1997 Analytical Review DWCCA-2380-PJL

Dear Ms. Klinke:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. As of today's date our office has not received a response to our letter of August 18, 1997 regarding our review of your 1996 report. Please provide your response at this time.
2. During our review of the Water Utility Plant In Service schedule on page W-8, we noted that while you report \$22,784 as the end of year balance for Account 321, Structures and Improvements in 1996, you do not report a first of year balance in Account 321 in 1997. Please explain. Please also note that any adjustments between accounts should be made using the adjustments column in the Water Utility Plant In Service schedule.
3. Please explain why there is no PSC remainder assessment reported in the Taxes schedule on page W-6.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

1997 Analytical Review DWCCA-2380-PJL

Dear Mr. Waldera:

Thank you for your response to our letter of January 19, 1999, concerning the 1997 analytical review of your annual report. Your answer has been helpful in providing information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. However, we feel the following items need further clarification before we can complete this analytical review. The items are numbered from our previous letter.

2. We have adjusted Account 321, Structures and Improvements in column (f) of our copy of your 1998 annual report to include the \$ 22,784, which was not recorded in your 1997 or 1998 reports. Please adjust your copy of the 1998 report accordingly.

3. In the future, please report the PSC Remainder Assessment in the line designated for that purpose in the Taxes schedule on page W-6 so that staff can verify that the Remainder Assessment is being reported.

If you have any questions, please feel free to contact me at (608) 267-9198. If you have no questions, you can consider the review closed. Thank you for your cooperation.

Sincerely,

Peter J. Leege
